Sales Order Processing Automation

sensaas! by INTEGRIM

A solution intended to automate sales order processing, accelerate the generation of accurate information, boost customer satisfaction and reduce costs.

SenSaas! integrates seamlessly into your manufacturing ERP solution. Only 100% accurate data sent. All processing completed outside the ERP.

Achieve significant savings by removing paper and manual handling from your purchase orders processes.

Enjoy the ability to update multiple systems at the same time – financial ERP, manufacturing ERP, shipping portals, as well as customer shipping updates and notifications.

Scalable to individual business needs: Enhance business workflows from order receipt to approval of exceptions to data transfer.

Automate the capture and extraction of Sales Order Data, providing enhanced business rules to ensure 100% correct order processing.

Dispense with paper by relying upon the latest in affordable data extraction technology.

Accelerates purchase and sales order management by providing users and approvers with instant access to any request/order in the system.
